## NEWS IN A NUTSHELL

Paragraphs That Give Condensed News of the Day.

Atlas Geography, Weekly Call, \$2.50  
Two-die.

A fine line of Easter Cards and Easter Novelties at Wall, Nichols Co., Ltd. Hawaii's Young People for April has been received from the Lahaina Press.

The Royal Hawaiian Garage has a five seater Locomobile in perfect condition for sale at a bargain.

A Kroger piano in very good condition is offered for sale very cheap as owner is leaving for the Coast.

R. Munch, civil engineer, surveyor and draughtsman, Honolulu, 1908 Alaka St., Kapiolani Bldg., near King St. The Makiki lots will be advertised tomorrow, and it is thought that there will be a rush for the choice residential blocks.

For a good messenger boy phone 1861, Parcel Delivery phone 1862, Laundry phone 1862, Territorial Messenger Service.

Leading hat cleaners formerly of 1154 Fort street removed to the new C. M. Cooke building, Beretania street near Nuanu avenue.

Dr. MacLennan, has returned and resumed practice. Office, King St., opposite Advertiser office. Hours: 10 to 12, 2 to 4, 6 to 7.

Jeneiro, a Portuguese lad about fifteen years of age, died at Makawili as the result of an accident which occurred last Tuesday when he fell between two cane cars.

The Queen street sewer is approaching completion, and the manholes are being fixed up. The concrete work is said to be very satisfactory and the sewer is practically a dry one.

## ATTEMPT TO SHIP OPIUM TO ISLANDS FRUSTRATED

San Francisco Call, March 21: An attempt to ship opium on the steamer Honolulu in a package consigned to a Chinese firm at Honolulu was frustrated shortly before noon yesterday as the vessel was about to sail. Inspector Fred Sutherland of the state board of pharmacy arrested L. Lum, 601 Grant avenue, and on search warrants took possession of the opium, valued at \$1000.

Yesterday afternoon the harbor commissioners decided that the best place for the inter-island floating pontoon dock is at the Ewa end of the ship between the Mauna Loa and Hackfeld wharves.

Louis Zoh, secretary of the pharmacy board, obtained the search warrants for the recovery of the opium before Police Judge Deasy yesterday morning.

## HAWAIIANS AT SACRAMENTO.

Sacramento Star, March 19: The native Hawaiian orchestra, which has been in this city for a few weeks, created a diversion at the capitol today by "serenading" Queen Isabella and Columbus." Their singing attracted many persons to the rotunda. The music resounded through the halls and offices of the capitol and gave a splendid effect.

## SUPERVISORS' OPINIONS.

(Continued from Page One.)

Supervisor Harry Murray—If there is anything in Mr. Field's report which requires an answer or a defense from the board of supervisors we shall attempt to answer it, and if there are any suggestions in it which are of value we shall consider adopting them. The question of the road work I should not care to discuss until I know upon what he bases his figures. Matters such as the maintenance of the land we could certainly save expenses upon if the public were willing to dispense with them. Some form of legislation which would compel householders to put their garbage outside would certainly simplify the collection of garbage and would put us in a better position to reduce rates and systematize our present garbage collection. The fire department we are building up as rapidly as possible. We have already spent \$12,000 for equipment and when our new trucks arrive on the Hyades we shall probably order a great deal more if they are a success and have our department on a better basis by July. A great portion of our expense in the health and sanitation department is in paying the salaries of men whom we turn over to the territorial government. I think the only means of solving the difficulties of the dual government is to put the matter up to the legislature. We certainly have no control over them. If Mr. Field's suggestions appear valuable let them be taken up at the next session of the legislature.

Supervisor Amama declared today that he had not seen a copy of the report nor had he read the morning paper's synopsis of it, and that he was therefore in no position to discuss the criticisms of the board of supervisors' administration.

## ANNUAL REPORT OF HUTCHINSON

SAN FRANCISCO, March 27.—The report of President Edward Politz of the Hutchinson Sugar Plantation Company, as submitted yesterday to the stockholders, shows gross earnings for the year 1911 of \$274,981.16 and net amounting to \$267,237.99. Dividend disbursements reached \$120,000, leaving a balance on hand of \$227,237.99. The report of the president is in part as follows:

Cash on hand Dec. 31, 1910 \$ 96,438.27  
Receipts during 1911 from  
7,225 tons of sugar ..... 565,413.07  
Receipts from other  
sources, including sales of  
ranch livestock, interest,  
etc. .... 9,568.09

Total ..... \$671,419.43  
Expenses for year 1911 ..... \$276,116.93  
Betterments for year ..... 7,964.51

Available balance ..... \$387,337.99  
Dividends paid during 1911 120,000.00

Net balance Dec. 31, 1911 \$257,337.99

I would call to your attention the very small expenses for the year 1911 as shown above, i. e., some \$276,000, or an average of only \$25,000 per month.

I would call your attention to the net profits on 1911 crop of \$178,549.83, this figure including a write off for depreciation of \$31,304.21, or, excluding depreciation, it would show a profit for the year of \$209,854.04.

Our manager's estimate for the 1911 crop was 6500 tons to be harvested from some 2635 acres of cane. Our net tonnage of sugar for the year 1911 was 7225 tons, as above, and was harvested from 1912 acres of cane, over-running the estimate by 825 tons of sugar. Some 722 acres of cane intended for the 1911 crop were not harvested, and have been carried forward and will come off during the year 1912.

You will see from the above that each acre of cane averaged 3.83 tons of sugar, which is a very fine showing when it is remembered that the cane harvested for the 1911 crop was practically grown in a drought, as scarcely any rain fell, affecting the crop under review, until after the middle of the year 1910.

The average net price received for our 1911 sugar was \$77.18 per ton, which is very satisfactory indeed, and is approximately \$10 per ton higher than the average net price received by a plantation, which held its annual meeting a very short time ago.

The lowest net price we received during the year 1911 was \$56.08 per ton, on February 14, 1911, on a New York basis of \$63.42 per pound; and the highest price was \$105.86 per ton, on November 3, 1911, on a New York basis of \$65.76 per pound; or a whole average for the crop of \$77.18, which is the best average net price the plantation has received for sugar for many years past, and which was occasioned by the fact that most of our sugar was marketed late in the year 1911, at prices ranging from \$94.45 to \$105.96 per pound of sugar New York basis.

There will be harvested during the year 1912 the following cane:

472.31 acres plant cane.  
1,346.86 acres long rattoons.  
289.49 acres short rattoons.  
Total, 2,108.66 acres.

Our manager has estimated 6500 tons of sugar from the above acreage, I believe, however, that the manager is very conservative in his figures, and that the tonnage of sugar will exceed 6500 tons, as above stated.

Up to the date of this report very little cane has been ground, as it was necessary to shut down the mill for annual repairs during most of January and during part of February. From now on, however, with sufficient rains for fluming purposes, good progress will be made on the crop.

I have to advise you that the house of representatives at Washington, D. C., on January 15, 1912, passed a bill allowing the construction of an irrigation ditch over government lands, and the use of government water in connection therewith, and the bill is now before the United States senate, and I have every reason to believe that the senate will pass the bill, and that it will receive the signature of the president of the United States.

Arrangements have been made by the corporation controlling the Kauai ditch affairs for an early start on construction work.

In conclusion, I wish to congratulate the stockholders on the excellent financial condition of the company, carrying over on December 31, 1911, some \$257,000, or \$17,000 more than will be required to pay the entire dividends at the present rate for the year 1912, without using any of the profits from the 1912 crop.

You will want new shoes for Easter and these shoes should be in the latest styles as well as of the best materials. The Manufacturers' Shoe Co., 1951 Fort Street, have an Easter stock of foot wear for men and women that will please the most fastidious.

## SUPERVISORS

(Continued from page One)

Kruger asked where, Dwight said, his lane was one place, to which Kruger retorted that the health committee should be notified of such things if it was expected to abate the nuisance.

Murray requested an opinion from the attorney as to whether a discharged soldier was entitled to residence privileges for the time he had been on service in Honolulu. Reference was to the qualifications for positions under the city and county.

The ordinance to prevent the depositing of rubbish, etc., on streets and sidewalks passed third reading. The ordinance providing for the construction of sidewalks passed second reading.

## Roads and Bridges.

The committee on roads and bridges recommended the appropriation of \$365.50 for continuation of work on Prospect street and \$348.23 for repairs on steam rollers, as requested by the Honolulu road overseer. A resolution by Dwight was passed, carrying \$713.73 for the purposes named.

The same committee recommended that the acquiring of a right of way on the frontage of the property of John A. Cummins for the widening of Nuanu street be referred to the city and county attorney. Adopted.

The health committee reported that mules for the two new garbage wagons could not be obtained from the road department, therefore asked that the ways and means committee be requested to pass a resolution calling for the purchase of four mules for the use of the garbage service. Referred to ways and means committee.

The same committee, in conjunction with Chief Engineer Thurston of the fire department, reported on the suggestion of Secretary Gurrey of the Underwriters that an ordinance be passed to regulate the storage of gasoline, saying that the matter was fully covered by Act 152, Laws of 1911. Ordered filed, a letter to be sent to Mr. Gurrey conveying the information stated.

Murray introduced a resolution that the appointment of L. M. Whitehouse as city and county engineer take effect as of April 1, 1912. Adopted.

Murray introduced a resolution that \$125 be appropriated for engineering and survey work payroll. Adopted.

## Expense reports were adopted as follows:

Ways and means—two payroll and two supply demands, making \$217.51. Roads, bridges, etc.—seven payroll demands, making \$635.93. Sanitation and health—two payroll demands, making \$577.15.

A recommendation of Engineer Gere that a steam roller lying idle at Kahuku be returned to Honolulu, so that it could be used on Nuanu street work, was, after considerable talk referred to the engineer and the road committee with power to act as they deemed fit.

Engineer Gere reported that the subdivision of land on Kalakaua avenue and Lewers road, submitted by Percy M. Pond, was in compliance with the ordinance, and recommended that it be approved. Adopted.

## Department Records.

Building and plumbing inspector Miehlestein reported for March, 124 plans filed and permits issued for plumbing, the estimated cost of all work under inspection \$15,074.75 and other data. Also, building plans filed, 90; permits, 114; inspections, 124; estimated cost, \$173,406.50. Fees—plumbing, \$253.50; building, \$363; government realizations, \$15.10; total, \$631.60. His automobile traveled 704 miles during the month.

W. H. Kallimail was nominated by Building Inspector Miehlestein as janitor of Lihouokalani school, Kaimuki, in course of construction. Orally the inspector said \$25 would be a fair salary until after the building was completed. Adopted.

Chief Engineer Thurston reported the two fire department autos to have made 282 and 306 miles respectively in February.

He also reported that the fire alarms in January were nine, property loss \$2285, property at risk \$7000, liability of insurance companies \$1015.

He also reported that the department responded to seven alarm of fire in February, relative to which the property loss was \$2649.78, the property at risk covered by insurance of \$10,600 and the liability of insurance companies \$2249.78.

## Four Inspectors Appointed.

The health committee recommended the appointment, as sanitary inspectors, of J. L. Osmer, T. Honan, William A. Kane and J. Wright. Adopted.

The same committee reported on the communication of Joseph F. Durao complaining that he had not been fairly treated with regard to his application for examination for the position of sanitary inspector. They enclosed as their report a letter from the chairman, P. J. Kruger, in English and Latin, telling Mr. Durao why

he was not available for the job. Accepted and filed.

## Communications.

E. C. Peters, attorney, wrote asking that the board do something to indemnify Albert Brown, carpenter, for injuries sustained, not by negligence on his part, while employed by the city and county to tear down a condemned building on Alakaa street. He had advised his client "that he assumed the risks of his employment and therefore could not recover civilly from the county," but the difficulty of the situation urged him to request that something be done for Mr. Brown pending his disability. Referred to the road committee.

Postmaster J. G. Pratt asked the board to submit proposals for removing rubbish from Honolulu postoffice (old) for the fiscal year ending June 30, 1913. Referred to road committee.

District Magistrate Monsarrat notified the board that he had appointed A. K. F. Yap as Chinese interpreter for the Honolulu district court. M. E. Menzes wrote asking for needed repairs to Sixth avenue, Kaimuki. Referred to road committee.

Sheriff Jarrett notified the board he had given his chief clerk, J. W. Asch, permission to take his annual vacation beginning April 2.

J. J. Miehlestein, building and plumbing inspector, applied for a three months' leave of absence, his physician having advised him to take the benefit of a mineral spring on the Coast. Referred to the committee on sanitation and health.

On the application of Engineer Gere, a two weeks' vacation was granted to Chris J. Willis, assistant engineer.

The board adjourned to Friday, April 12, at 7:30 p. m.

## NO CRIME TO USE

## ANOTHER'S BATHTUB

Sacramento Bee, March 20: Taking a bath is not disturbing the peace, according to a ruling made by City Justice Anderson this morning, and on the strength of this Andrew Palapalo, Hawaiian, was given his liberty.

He was charged with disturbing the peace of Mrs. Lillian Brewster, front and second, N and O streets. Mrs. Brewster said the Hawaiian trespassed on her premises repeatedly, and that after promising to stay out of her yard she said he had the temerity to establish himself in her bathroom without her knowledge, and was splashing around when she discovered him.

## MAKING HOME IN HAWAII.

Salem (Ore.) Statesman, March 12.—News has been received by the friends of Norman B. Courtney and Luke M. Rader, who started on a jaunt around the world last fall from this city, that both young men are at present in Honolulu, Hawaii. The boys say they like it so well there that they may make that country their permanent home. Norman B. Courtney, it is reported, has secured the position of secretary to the governor of the Territory of Hawaii, while at last reports Rader was still playing football. Both young men were present at the annual dinner of the Hand-Around the Pacific Society, at which an Oregon club was formed with Mr. Courtney elected as president. Many other Oregonians were present and they succeeded in boosting the great old Beaver state.

We will make the island trip, with party of three or four at \$6.00 each; and party of five or six at \$5.00 each. Our per hour rates are \$2.50, \$3.00, \$3.50 and \$4.00. Holidays, \$5.00 per hour. Silva's Auto Stand, Chaplain street, opposite Catholic Mission.

## PERSONS IN THE NEWS

W. B. CRAW, wife and child sailed in the Honolulu.

W. ELLERBROCK left in the Honolulu for the Coast.

C. H. FAIRER returns to San Francisco in the Honolulu.

O. H. SWEZEY, entomologist, returned to town from Kauai this morning.

H. C. CARTER, of H. Armitage & Co., left in the Honolulu for the round trip.

E. B. BRIDGEWATER, editor of the Garden Island, arrived in the W. G. Hall this morning.

MARSTON CAMPBELL, superintendent of public works, will probably visit Maui soon. He may catch next Friday's Claudine.

LONGFELLOW and Bense left last week for Honolulu, where they will spend some little time before starting on a trip around the world.—S. F. Labor Clarion, March 15.

DIRECTOR W. T. BRIGHAM of the Bishop Museum will leave this day

## CRITICIZES REPORT

(Continued from page One.)

cans and rubbish from the streets. office of so populous a county should be unprovided with a clerical force, and if such a state of affairs exists in Memphis, it exists nowhere else in the United States in any large center.

In the City and County of Honolulu, the City and County Attorney's office does the work of the District Prosecuting Attorney, the County Attorney and the City Attorney, while in addition we handle all of our cases in the appellate court, of which so far this year there have been already decided by the Supreme Court four cases, all in our favor. This work is usually handled on the mainland by the Attorney General.

In stating the number of cases handled by my office, the expert has made an error of about 3500 cases, as the number of criminal cases, only, handled by my office in all courts during the past year exceeded 4,090, instead of being 497 as stated by Mr. Field, an error of about 700 per cent.

In computing the comparative cost of prosecution, Mr. Field has left out all the salaries and expenses of the City Attorney's office of the city of Memphis and of the State prosecuting officers, but even at his own figures the cost of prosecuting here is about twenty per cent less, and the showing would be far greater in favor of my department if all the Memphis figures were at hand.

I am not called upon to consider the expert's report as to other matters, but regarding my office and the work of my office, Mr. Field exhibits crass ignorance, nor has he endeavored to enlighten himself by ever calling upon me or coming into my office for the purpose of obtaining information.

I would respectfully request that this communication be published in your paper.

JNO. W. CATHCART,  
City and County Attorney of the City and County of Honolulu.

## PASSION MUSIC GRANDLY GIVEN

The choir of St. Andrew's cathedral rendered the "Crucifixion," by Sir John Stainer, last night before a congregation which taxed the cathedral to its capacity.

Long before 7:30 the church was crowded and when the choir entered the church all rose and sang, "At the Cross Her Station Keeping."

It was a simple introduction to a glorious oratorio. The regular choir of fifty was augmented by several of the best known singers in Honolulu, the chief soloists being Arthur Wall, tenor; Arthur Jones, bass, and T. Clive Davics, bass.

It was difficult music and rendered with exceptional depth of feeling and understanding and showed the result of long drill, but the real secret of its success was because the singers understood their music and put their hearts as well as their voices in it and because St. Andrew's has an organist possessing a religious temperament as well as technique and a knowledge of music.

Reginald Carter, A. R. C. O., the cathedral organist, played the "Dead March From Saul," as a finale. It is to Mr. Carter that the credit of the success of the Passion music is due.

During the service, an offertory was taken, the proceeds of which will be placed with the new organ fund.

## ALEXANDER HOUSE GYMNASIUM PLANS

(Special Correspondence of the Star.)

WAILUKU, April 2.—The gymnasium committee of the Alexander House gymnasium in Wailuku had a meeting on Monday night in which the first draft of rules governing the gymnasium were presented. The committee was the same as has served the gymnasium for the past six months: Rev. R. B. Dodge, H. B. Penhallow, C. E. Myers, O. J. Whitehead and D. F. Carey. The committee voted that William H. Engle, who has been taking charge of the gymnasium for the last five months, should be from this time on considered the general business manager, and that he should be given full charge of the business affairs of the gymnasium, subject to the ratification by the committee.

C. E. Myers, D. F. Carey and W. H. Engle were appointed a bowling committee, who should have in charge the arrangements of all match and handicap games and in full charge of the alleys.

A beautiful cup was presented by the Wailuku Sugar Company, through Manager H. B. Penhallow, to the members in good standing of the gymnasium for a thirty-game handicap bowling tournament. The tournament will begin at the Wailuku alleys as soon as the gymnasium bowling committee arranges the handicaps.

Regular hours for all work in the gymnasium and rules governing the institution are being drawn up by the committee in charge. All matters of business will be referred to the committee at the regular stated meeting of the committee, which will be held the first Monday after the first of each month.

## Palm Sunday.

Palm Sunday was faithfully and pleasantly observed in all the Central Maui churches. A very large audience was present at the Makawao Union church. The decorations were appropriate for the day. "O Come, O Come Emmanuel," was sung as a hymn anthem by the choir and congregation. The choir sang special music.

At the Church of the Good Shepherd in Wailuku, Rev. William S. Short preached an appropriate sermon of great strength. The decorations were very fine.

The Roman Catholic churches celebrated the day with the usual decorations.
